Dear Sir / Madam:
Radio.

My wife and I are both subscribers to XM Satellite

We are very pleased with our service and I do listen to the traffic and weather channels included with this service. We ask that you reject the NAB's petition 04-160. The NAB has no right to restrict what we hear on a service that we like and that we pay for as subscribers. Thank you for your consideration.

Sincerely,

wade and Eileen wuagneux
